Introduction

The **RCK-204M** is a 2U Rackmount chassis that boasts a depth of only 450mm (17"), thus providing an ideal solution for those applications where the chassis depth can make or break a project. Equipped to handle ATX motherboards or Dual CPU server boards, the **RCK-204M** proves to be a perfect choice for all ISP or Telecom applications. Exceeding the drive capacity of most 2U chassis, the **RCK-204M** can support up to four drive bays, one 5.25" CD/DVD, (1) 3.5" FDD, and (2) "hidden" internal 3.5" bays. A PCI riser card can be used with up to (3) PCI slots for additional peripherals. Two 8cm ball bearing fans ensure excellent airflow when faced with a heat sensitive application. The **RCK-204M** provides a robust solution to any server application, while still remaining compact.
